

Manufacturers & Exporters of
All Kinds of Brass Components

SUNRISE
INTERNATIONAL

Profile

Sunrise International, the well – known and trustworthy name in the field of Brass Components. It was established with the vision to cater the requirements of customized Brass Components of any dimensions and specifications with quality. Sunrise International is one of the largest Manufacturer of Brass Components in India and Abroad. Our Machined Components are produced for various metals ranging from 0.50 mm to customers requirement.

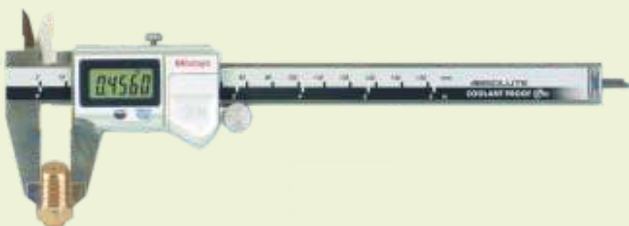

We offer a comprehensive array of machining capabilities and ancillary process to ensure your jobs always conform to specification. Sunrise International is having a large number of automatic and semi-automatic machines, installed to manufacture a diverse and difficult range of brass products. The production cycle includes casting, machining, polishing, lacquering and packaging.

The company commits considerable time and resources to the investigation of new technologies both to ensure that we retain our position at the fore front of the industry and to meet the changing needs of customers. A majority of our sales result from repeat business and recommendations from our existing clients to other users who come to us for their turned parts. Sunrise International's integrated finishing capabilities allow us to handle this critical aspect of production seamlessly.

Quality

Sunrise International is in existence keeping the aspirations to fulfill the carvings of our valued customer. The stringent quality control is essential in each and every step, as we are one of the renowned Manufacturers & Exporters of Brass Components.

The quality control at Sunrise International begins with an exacting check on the raw material as per customers requirements and is maintained throughout the manufacturing process. A team of engineer's checks and reports at every stage of the manufacturing process. Our fully automated production plant is engineered to respond to the customer's command.

Our varied products cater to an ever increasing spectrum of industries. The quality control system is very powerful here. A team of professionals check the product specifications of each and every Brass Products.
